## Christmas Ball and Candle Centerpiece

**This quick, easy, and festive centerpiece is perfect for holiday tables.**

This quick and easy-to-do arrangement looks particularly elegant on a silver tray, but any kind of tray -- or even a shallow bowl -- will do. If you can't find clip-on candleholders, use regular candleholders held in place with a bit of Fun-Tak, a reusable adhesive putty available at crafts stores.

### **You Will Need**

- Round tray
- Blue spruce sprigs
- Dried pepper berry sprigs (available at crafts stores)
- Large silver Christmas balls
- Clip-on candleholders
- Small no-drip white tapers

### **What to Do**

Fill the tray with sprigs of blue spruce and pepper berries. Tuck the Christmas balls into the sprigs and berries. Attach small clip-on candleholders to spruce sprigs in a circle around the edge of the tray, and finish with small no-drip white tapers.
